Bicycles

Which of Sögrenis bicycles will suit you the best? You design the bicycle with your head and your heart, we build it after your specifications - so, as you'd expect, it might take some time. Please allow anything from 8 to 16 weeks before you can expect delivery. All bicycles available in 5 frame sizes. See the Frame Size Chart to see which fits you better.

By the default, sorting is A-Z. Clicking on it brings all the other options in drop down menu, and clicking on the arrow toggle from increasing to decreasing. Clicking on Filter brings a new line with filtering options. For the bicycles, no filter will really exclude any result other than wheel size and frame format (Female/Male).

	<p>Classic (The Louisiana Bicycle) Female/Unisex</p> <p>This is a quiet bicycle, very elegant and modern in its design and without much fuss. The Sögreni Classic is practically a work of art, and this is the Louisiana model (named for the Museum of Modern Art in Humlebæk, Denmark, which chose to exhibit it as an example of the best contemporary Danish design).</p> <p style="text-align: right;">€1,669.00</p>

More then a Bicycle

Sögreni bicycles are built by hand, and adjusted to perfection. A Sögreni bicycle is not only an effective mean of transportation, it is considered by some to be an object of contemporary art.

Accessories

You have the option of either getting one of these original Sögreni accessories to fit your new bicycle, or getting one for your existing bicycle, whether it is a Sögreni or not. All accessories are assembled by hand, and we use parts from different suppliers in Denmark and northern Europe. All accessories are inspected and tested before being put on sale.

Young Shatterhand Female/Unisex

Main Features

- The bicycle for the city
- Upright sitting position for better overview of traffic
- 26 inch wheels for quicker maneuvering
- Low balancepoint, turns quickly

This bicycle has a temper of its own: It gladly takes control and needs a firm hand, but when you master the Young Shatterhand, it works excellently in the city with its ability to turn in narrow places, and it's great at cutting corners. The Young Shatterhand is built to the same measurements as a road bicycle, meaning that it has quite a low balance point, and as you sit upright you can use all of your pedalling force downwards, making the bicycle fast and a good sprinter. For the Young Shatterhand, we use 26 inch mountain bike rims and wheels. This gives you stability, and your ride will be soft and smooth thanks to the Brooks saddle with suspension. In Søren Sögrenis words:

"I just loved this model as soon as we finished the first many years ago. Probably the best combination of usability, design and joyful riding we ever created."

The next section only appears after clicking in customize. The buttons will move to the end of that section and the value will change accordingly to selected customizations.

Drum Break

The lever is placed on the right hand side, unless you ordered extra gears. In that case, we place it on the left hand side - there simply is no space for both on the right hand side of the handlebars.

Front Break | +€126.00 (+0.8kgs)

Gear

Our bicycles are single speed freewheel by default. If you would like to add gears, please select a option below.

3 Gear | +€109.00 (+0.4kgs)

Continuously Variable | +€469.00 (+2.5kgs)

Personal engraving

The engraving is made before we paint the bicycle, and normally made on the left hand side of the bicycle. Each engraving comes with up to 15 character (not counting spaces). Additional characters cost €20.00 each. We will contact you to get additional instructions (such as typeface and text). Notice that other types alphabets may offer certain limitations (typeface options, etc).

Up to 15 Characters Engraving | +€265.00

3 | Additional Characters | +€20.00

Mounted Lock

While we recommend the our wire lock for better safety, the mounted lock is easier to use on a daily basis.

Mounted Lock | +€59.00 (+0.6kgs)

Kickstand

The kickstand is not designed by Sögreni, but something we get from great suppliers in Germany in Switzerland, like the Esge kickstand.

Kickstand | +€29.00 (+0.2kgs)

Painted components

The rims, fenders, and handle bars and stem finish is matte aluminum with delta-coated fisting (brass in the fenders. However, you can choose to add a painting finish to them. The painting finishings will be the same as the frame.

Painted Fender | +€49.00

Painted Rims | +€49.00

Painted Handle and Stem | +€25.00
